

## IF-Weinheim – NVR activities

**Written by: Dr. Barbara Ollefs**

At the institute for systemic education and development Weinheim (oldest institute for systemic therapy in Germany) we offer an education in “systemic parental coaching and professional presence”, based on a hierarchy of different seminars: a basic seminar, an in-depth-training seminar, three different seminars of free choice and a final 2 days supervision seminar (all in all 14 days).

In March 2017 we organized a conference at the private university of Witten Herdecke with the title „Clever paths for networking“ with Haim Omer and Arist von Schlippe and many experienced colleagues in NVR. We were glad to welcome 250 participants and the organisation team around Claudia Terrahe-Hecking, Dennis Haase, Barbara Ollefs, Arist von Schlippe and Ulrike Willutzki has got many excited feed backs.

We integrated results from other research areas, e.g. in family business by Arist von Schlippe and have published different articles concerning the NVR.

We continued networking within our institute and other organizations and colleagues from outside e.g. Austria and Switzerland. Members of the institute of IF-Weinheim, who are involved with the subject of “systemic parental coaching and professional presence” are: Claudia Terrahe Hecking, Cornelia Hennecke, Dennis Haase, Tom Pinkall, Prof. Arist von Schlippe, Petra Girolstein, Dr. Barbara Ollefs.
